### Society Ratification Form

Society Name: John Snow Beans Society

Brief Description: We are just lovers of beans, we want to get together to attempt to write a review of beans at every Durham establishment which sells them. We want to create a comprehensive list so that our members know where to get the best beans in Durham. We want to create a space for the appreciation and discussion surrounding a food that is integral to surviving student life. After receiving 22 signatures for this society we knew it was something we needed to take to the JCR, to fulfil peoples desires for such a great society.
